# epay Integration Request

Complete the below details to notify ClickPOS of your intent to integrate with epay.

There is no limit to the number of locations that you can integrate providing you have a branch in ClickPOS to connect to.

This offer is not exclusive to telecommunications providers but generally any retail environment that would like an opportunity to sell epay products to their consumers and meet the epay and integration requirements

Integration setup and ongoing maintenance will be maintained by ClickPOS and you will not incur any cost making this solution essentially free to use. Now that's incentive!

Please ensure you print, fill and Email your completed form to epay ASAP (form located below in the requirements area)

## Company Information

Location/s required for integration #

## Requirements for Integration

**Complete/Submit this integration request form**
*This allows ClickPOS visibility over your intent to apply and helps us to prepare for your integration prior to receiving notification from epay.*

**Complete a new epay application with epay**
epay agreement application form
*Note: You unfortunately cannot utilise your existing epay account. You may cancel your other terminal based account and return the terminal once you are content with the integrated solution.*
*(Note: epay application has a maximum of 4 stores, complete form again for additional stores greater than 4)*

**Receive epay application approval from epay**
*You will be notified by epay upon approval of your application.*

**Currently own (or purchase) a ClickPOS supported Epson TM-Series thermal printer**
*This will be used to print epay vouchers and POS receipts.*
*Contact sales@clickpos.com if you require a thermal receipt printer upon/after approval of your epay application.*
List of compatible Epson printers

**Complete the required steps detailed on ClickPOS support website**
*Follow detailed steps at the following website*
